Here's how a Wizzard Worms wormery will enhance your garden and grounds and delight your customers ...

- 1. Going Green can improve your health.
- 2. Recycling with a wormery will reduce your waste removal costs
- 3. Avoid generating unpleasant odours and attracting flies with rotting refuse
- 4. Reduce your fertilizer costs by using the worm-created compost and leachate (worm wee)
- 5. Your garden and plants will flourish by using the worm created products
- 6. Your vegetables will taste better too!
- 7. Not only will you be doing your part for the environment but you'll also create a unique attraction for your guests

Choosing your worm farm

Wizzard Worms produce a range of wormeries and the below information should guide you in selecting the correct unit to suit your conditions and requirements. They all produce the vermileachate (worm wee) and vermicompost (worm compost) that will be hugely beneficial to your garden not to mention recycling waste.

They are all easily assembled and commissioned with instructions supplied, however we would be happy to do this for you but would need to charge for this service.

Please find attached photographs in the order mentioned below:

We believe in what we do!	Selling Price	Approximate
Product	per unit	number of
		worms
Our Green Wormery	R1985 each	4,000
The Green Units are very presentable for customer viewing and can be		(4 cartons)
easily fed if placed in a group.		
Additional freight charge outside of Natal.	R265 each	
The Commercial Unit 2.4x1.8m	R10,500	25,000
The Commercial Unit is very robust and at a good level for operation. Can	(Ex Greytown)	25,000
be moved if necessary. Suitable for an hotel and can handle garden waste		
as well.		
Low delivery cost but dependant on your location.	POA	
The Mini Commercial Unit 1.8x1.4m	R5,900	10,000
Suitable for a small hotel or large B&B. Robust and easily moved.	(Ex Greytown)	10,000
Low delivery cost but dependant on your location.	POA	
The General Purpose Unit	FOA	
Ideal wormery when you have horses, cattle, elephants or a great deal of		
grass cuttings and garden waste. Handling kitchen waste at the same time.		
Easily made to look attractive.		
Ground level strong units with 150mm timber surround optional and easily		
fed mechanically.		
3mx1.5m	R4,950	20,000
Timber surrounds	R400	
6mx1.5m	R9,450	40,000
Timber surrounds	R500	
	R12,000	60,000
9mx1.5m	R600	,
Timber surrounds	ROUU	
Worms and compost can be separated quickly and with ease.		
Vermicomposter	R2,950	10,000
Replaces the compost heap and rapidly deals with your garden waste –		
processing the kitchen waste at the same time.		
Can be operated at ground level but we recommend surrounding the unit		
with logs or cement blocks, half filling the area to enclose with soil and thus		
bringing the unit to an easier operating height. Highly recommended for		
the serious gardener.		
Wooden Green Surrounds (optional)	R1,185	

All the above prices include VAT and delivery to most destinations in South Africa; an Order Form is attached. Alternatively – feel free to order through our website: www.wizzardworms.co.za.

We will happily send more details of all or any specific unit. You are welcome to phone me on 076 875 0266 for more clarification.

Advantages of acquiring one of our wormeries.

- 1. You are reducing your carbon footprint.
- 2. Less garbage for collection and landfill
- 3. You will be joining an ever-increasing family of happy worm owners.
- 4. You have a choice of unit.
- 5. Your garden and plants will benefit hugely
- 6. You may grow your own organic vegetables (which taste better too).
- 7. And lastly wormeries make for great dinner table conversation!

We provide ongoing support to all our customers and we welcome visitors to our farm near Mooi River in Natal. Do visit to view various wormeries in operation, and to see our vegetable garden that has received nothing but worm products for 8 years.
